Importance: Normal
Subject: PFAS - States/EPA Roundtable Call
Start Date/Time: Thur 6/23/2016 5:30:00 PM
End Date/Time: Thur 6/23/2016 7:30:00 PM

;

To: NEWMOA Waste Site Cleanup Steering and Training Committee and Other PFAS Designees

The call-in number is: (513) 386-0000 and the access code is: Ex. 6 - Personal Privacy

On this call, we'll determine the standing monthly week/day/time for this monthly states/EPA roundtable call. See below for the tentative call agenda (I think we'll only get through #1 on this first call)...

1. Treatment/Disposal of wastes containing PFOS and PFOA (see attached "02 Chap2 CDV.PDF" for some general information)
 - a. How are we advising people to dispose of AFFF (CERCLA liability for landfill disposal)
 - b. How effective is solidification with Portland Cement at preventing leaching (EPA method 1315)
 - c. Thermal treatment (MSW incinerators have refused PFC containing materials in NY due to air emission concerns)
2. Investigation of sites
 - d. Conceptual model of source material remaining from AFFF release (microscopic analysis?)
 - e. Cross contamination of samples (lab equipment, sampling equipment, clothing)
 - f. Update for ongoing investigations (lessons learned)
3. Remediation
 - g. Effectiveness of ISS for source areas.
 - h. Thermal desorption for contaminated soils
 - i. In-situ carbon (funnel and gate, PlumeStop)
